WORK EXPERIENCE

Web Developer(Freelance / Remote) 2024 - Present

- Collaborated with clients remotely to gather requirements, develop features, and deploy production-ready applications.
- Built customized product catalog systems with secure contact and inquiry management features.

PROJECT

AuthSphere winter 2025

- AuthSphere is a centralized authentication platform that provides secure authentication and authorization services for modern web applications. It implements OAuth 2.0 with PKCE to enable secure login flows and offers a plug-and-play SDK that allows developers to integrate authentication into their applications with minimal configuration.

AI COMM – AI-Powered Git Commit Assistant summer 2025

- Developed an AI-powered CLI tool that analyzes Git diffs and generates context-aware Conventional Commit messages using LLMs.
- Integrated Git status and diff parsing to automatically summarize staged and unstaged code changes.
- Designed a lightweight CLI interface with customizable configuration, dry-run mode, and intelligent commit message generation.

SKILLS

- Languages: Go, JavaScript, TypeScript,
- Technologies: Node.js, Redis, Docker, Git, Docker
- Other: API Design, Database Design, Authentication & Authorization, Prompt Engineering, Developer Tooling

EDUCATION

Savitribai Phule Pune University, Pune

B.E. in Computer (Ongoing)

Expected Graduation: 2027
